47 C.F.R. § 76.75(b)(2) Outreach Initiatives:

Establishment of training programs designed to enable unit personnel to acquire skills that could qualify them for higher level positions, 47 C.F.R. § 76.75(b)(2)(viii):

Wave Broadband has established training programs to qualify unit personnel for higher level positions, and supports the efforts of employees to further their education in areas which will benefit their work with the company, or which are required for advancement to higher level positions. For example, Wave Broadband supports and encourages continuing education through National Cable Television Institute (NCTI) courses and the Society of Cable Telecommunications Engineers (SCTE) Certification Programs. The company pays for unit employees to participate in all courses by these two industry professional organizations. These courses provide the skills and knowledge required for advancement in many of this unit’s job classifications.

Participation in other activities reasonably calculated to further the goal of disseminating information as to MVPD employment opportunities to candidates who might otherwise be unaware of such opportunities, 47 C.F.R. § 76.75(b)(2)(xvi):

Wave Broadband participates in street fairs and other community events to promote our company's products, and at the same time disseminate information on employment opportunities and careers at Wave Broadband. The regional sales team attended the following events:
